1. Newly amended claims 23-25 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Applicant has amended claims 23-25 to recite a method for using nanoscale flakes, the flakes being made by the method of claim 1. However, an article does not "know" its method of use and such claims are considered to constitute a separate and distinct invention on this basis.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23-25 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the claims

Claims 23-25 have been cancelled

3. Authorization for this examiner's amendment was given in a telephone interview with Mr. Bembenick on February 11, 2010.
